

November 13, 2008

TO: Members of the Facility and Plan Review Subcommittee  
Los Angeles County Solid Waste Management Committee/  
Integrated Waste Management Task Force

FROM: Wu Tan *WT*  
Staff

**AMENDMENT No. 2 TO THE CITY OF SANTA CLARITA'S NONDISPOSAL FACILITY ELEMENT**

The City of Santa Clarita is requesting the Task Force to review and comment on the proposed amendment to its Nondisposal Facility Element (NDFE) in accordance with the requirements of Sections 41730, 41732, 41733, and 41734 of the California Public Resources Code and Sections 18761(b) and 18770, Title 14 of the California Code of Regulations.

The City's NDFE was approved by the California Integrated Waste Management Board (Waste Board) on September 23, 1994. [In a related matter, on October 16, 2008, the Task Force approved the City's request to amend their NDFE to include the Rent-A-Bin facility.]

The City is proposing to amend its NDFE once again to include the following facilities which are located outside the City:

- Agromin Green Materials Composting (located in the unincorporated County area);
- Community Recycling/Resource Recovery, Inc. (located in the City of Los Angeles);
- Downtown Diversion (located in the City of Los Angeles);
- East Valley Diversion (located in the City of Los Angeles);
- Santa Clara Organics (located in the City of Fillmore, Ventura County); and,
- Sun Valley Paper Stock Materials Recovery Facility and Transfer Station (located in the City of Los Angeles).

A summary description of each facility's operations is shown in Exhibit A entitled, "City of Santa Clarita Nondisposal Facility Element – November 2008 Amendment No. 2, Summary Table."

Staff has reviewed the City's NDFE Amendment request and offers the following:

1. Conformance with the Countywide Integrated Waste Management Plan

The City is requesting to amend its NDFE to include Agromin Green Materials Composting (located in the unincorporated County area), Community Recycling/Resource Recovery, Inc. (located in the City of Los Angeles), Downtown

Diversion (located in the City of Los Angeles), East Valley Diversion (located in the City of Los Angeles), Santa Clara Organics (located in the City of Fillmore, Ventura County), and Sun Valley Paper Stock Materials Recovery Facility and Transfer Station (located in the City of Los Angeles) pursuant to Sections 41730, 41732 and 41733 of the Public Resources Code.

Incorporating of the above facilities into the City's NDFE will not impair or impede solid waste management activities in Los Angeles County. However, the Task Force, as a regional body, needs to collect information on waste diversion activities in the County. Therefore, the facility operator should submit necessary data to aid the Task Force in evaluating the solid waste management needs of Los Angeles County.

## 2. Compliance with Environmental Regulations

In accordance with Section 41735 of the Public Resource Code, adopting or amending the NDFE is not subject to environmental review. Therefore, no environmental document was prepared for the proposed NDFE amendment.

## 3. Compliance with State Laws and Regulations

Section 41732 of the Public Resource Code requires jurisdictions to prepare an NDFE that includes a description of any new solid waste facility and expansion of existing solid waste facilities that will be needed to implement the jurisdiction's Source Reduction and Recycling Element to meet the diversion requirements of Section 41780 of the Public Resource Code. Specific requirements for the contents of an NDFE are contained in Section 18752 et seq., Title 14 of the California Code of Regulations.

The proposed NDFE Amendment complies with the facility description requirements contained in Section 18752 et seq., Title 14 of the California Code of Regulations.

## Recommendations

Based on the foregoing, staff recommends the Task Force:

1. Concur with the subject amendment No. 2 to the City of Santa Clarita' NDFE; and,
2. Request the following facilities to submit monthly reports on a quarterly basis (within 30 days of the end of the quarter) to the County of Los Angeles Department of Public Works, Environmental Programs Division, P.O. Box 1460, Alhambra,

California 91802-1460:

- Agromin Green Materials Composting (located in the unincorporated County area);
- Community Recycling/Resource Recovery, Inc. (located in the City of Los Angeles);
- Downtown Diversion (located in the City of Los Angeles);
- East Valley Diversion (located in the City of Los Angeles);
- Santa Clara Organics (located in the City of Fillmore, Ventura County); and,
- Sun Valley Paper Stock Materials Recovery Facility and Transfer Station (located in the City of Los Angeles).

The report shall contain the type and quantity of waste (weight) received at the facility for processing, recycling, and disposal at offsite facilities (Exhibit D).

The facility owners/operators may submit the quarterly reports in an alternative reporting format approved by their respective Local Enforcement Agency.

WT:

Attach.

**COMPLIANCE SHEET  
EXHIBIT C – DISCUSSION**

<b>AGROMIN GREEN MATERIALS COMPOSTING</b>	
<b>REQUIRED INFORMATION</b>	
Type of Facility	Agromin Green Materials Composting facility is a green waste composting operation operated by Agromin Horticulture Soils. It accepts agricultural and green materials. The facility is permitted to accept up to 200 tons/day of green waste.
Estimated Amount of The Waste The Jurisdiction Will Transport To The Facility	26,430 tons per year
Diversion Rate or Expected Diversion Rate From The Total Amount of Waste Received	The current diversion rate is 90 percent
Location of Facility	Potrero Canyon Road, Newhall, CA 91381
<b>ADDITIONAL INFORMATION</b>	
Description of General Area	Zoned A2-5 (Agricultural)
Other Comments	None

WT:

**COMPLIANCE SHEET  
EXHIBIT C – DISCUSSION**

<b>COMMUNITY RECYCLING/RESOURCE RECOVERY, INC.</b>	
<b>REQUIRED INFORMATION</b>	
Type of Facility	The Community Recycling/Resource Recovery, Inc. facility is a large volume material recovery facility and transfer station. It accepts construction and demolition materials, industrial, and mixed municipal waste (permitted up to 1,700 tons per day).
Estimated Amount Of The Waste The Jurisdiction Will Transport To The Facility	24,068 tons per year
Diversion Rate or Expected Diversion Rate From The Total Amount of Waste Received	The current diversion rate is 75 percent
Location of Facility	9147 De Garmo Avenue, Los Angeles, CA 91352
<b>ADDITIONAL INFORMATION</b>	
Description of General Area	Zoned M-3 (Unclassified)
Other Comments	None

WT:

**COMPLIANCE SHEET  
EXHIBIT C – DISCUSSION**

<b>DOWNTOWN DIVERSION</b>	
<b>REQUIRED INFORMATION</b>	
Type of Facility	Downtown Diversion is a large volume CDI debris processing facility owned by Waste Management. It accepts construction and demolition materials (permitted up to 1,500 tons per day).
Estimated Amount of The Waste The Jurisdiction Will Transport To The Facility	1,233 tons per year
Diversion Rate or Expected Diversion Rate from the Total Amount of Waste Received	The current diversion rate is 80% C&D and 95% clean inert
Location of Facility	2424 Olympic Boulevard, building #2, Los Angeles, CA 90021
<b>ADDITIONAL INFORMATION</b>	
Description of General Area	Zoned C-2 (Neighborhood Business)
Other Comments	None.

WT:

**COMPLIANCE SHEET  
EXHIBIT C – DISCUSSION**

<b>EAST VALLEY DIVERSION</b>	
<b>REQUIRED INFORMATION</b>	
Type of Facility	East Valley Diversion is a large volume CDI debris processing facility owned by Waste Management. It accepts construction and demolition materials (permitted up to 750 tons per day).
Estimated Amount of The Waste The Jurisdiction Will Transport To The Facility	4,959 tons per year
Diversion Rate or Expected Diversion Rate from the Total Amount of Waste Received	The current diversion rate is 80 percent C&D, and 95% clean inert
Location of Facility	11616 Sheldon Street, Los Angeles, CA 91352
<b>ADDITIONAL INFORMATION</b>	
Description of General Area	Zoned M-2 (Heavy Manufacturing)
Other Comments	None

WT:

**COMPLIANCE SHEET  
EXHIBIT C – DISCUSSION**

<b>SANTA CLARA ORGANICS</b>	
<b>REQUIRED INFORMATION</b>	
Type of Facility	The Santa Clara Organics facility is a chipping and grinding facility operated by Santa Clara Organics, LLC. It accepts green materials only (permitted up to 500 cubic yards per day).
Estimated Amount of The Waste The Jurisdiction Will Transport To The Facility	2,140 tons per year
Diversion Rate or Expected Diversion Rate from the Total Amount of Waste Received	The current diversion rate is 100 percent
Location of Facility	315 Cavin Road, Fillmore, CA 93015
<b>ADDITIONAL INFORMATION</b>	
Description of General Area	Zoned A-2 (Agriculture)
Other Comments	None

WT:

**COMPLIANCE SHEET  
EXHIBIT C – DISCUSSION**

<b>SUN VALLEY PAPER STOCK</b>	
<b>REQUIRED INFORMATION</b>	
Type of Facility	The Sun Valley Paper Stock is a material recovery facility and transfer station (permitted up to 1,250 tons per day).
Estimated Amount of The Waste The Jurisdiction Will Transport To The Facility	4,912 tons per year
Diversion Rate or Expected Diversion Rate from the Total Amount of Waste Received	The current diversion rate is 80 percent
Location of Facility	8701 N. San Fernando Rd, Los Angeles, CA 91352
<b>ADDITIONAL INFORMATION</b>	
Description of General Area	Zoned M-2 (Heavy Manufacturing)
Other Comments	None
