

NPDES field training consist of the following.

At the beginning of each County project, inspection reviews the BMP manual and the approved SWPPP program for each County capital projects that AED is inspecting. As the NPDES coordinator for the construction inspection section, I discuss with each inspector the requirements that are noted on the approved drawings and how to monitor the contractors BMP's for compliance and implementation. We review the BMP checklist reports which are on file for all county projects under construction. When issue arise or condition need to be altered in the field, County inspection will consult with the site QSP and make the appropriate modification, if changes are required the QSD will develop the modification. Significant change will require resubmitting to Building and Safety Division.

**County of Los Angeles Public Information and Participation Program  
Fiscal Year 2011-12 Summary of Staff Training**

Kimberly Y. Lyman, Public Relations Group, attended the Annual Training Refresher for the Illicit Connection/Illicit Discharge (IC/ID) program on April 10, 2012, at LACDPW Headquarters. The Annual Training Refresher helps revisit the basic requirements of the IC/ID program under the NPDES Permit, address the current efforts of LACDPW to comply with the requirements, and forecast the potential future requirements of this program under the next NPDES Permit.
